

Secure wattles with the 18" EcoWattle Stake.

EWS-18

ecowattle

Holding power is unmatched to wood stakes with the soil grabbing rib design. Stakes stay put in the ground.

ECOWATTLE 18" REUSABLE STAKE

An Eco-friendly alternative that outperforms wood

- Holds wattle down better with the two-arm design
- With the anchor head design wattles will now stay in place when water flow is at its highest
- Holding power that is unmatched with the ribbed design
- Made from the same material as bulletproof glass to penetrate tough soil

For Sales Inquiries or More Information:
Ecoturfmidwest.com or email info@ecoturfmidwest.com

Create a more aesthetically appealing and safer job site and hold the wattles down without wattles wanting to float up in heavy flow conditions.
