

TreeDiaper®

Advanced Plant Hydration System

Made in the
USA
Patented
Eco-friendly

Scientific proof supported by the
National Science Foundation

Features:

- Rain/snow water harvesting
- Automatic hydration
- Stormwater retention
- Super slow-releasing irrigation
- Root protection
- Pollutant and erosion reduction
- Nutrient retention
- Weed control

Virtually maintenance free!

How it works:

- 1 TreeDiaper® absorbs rain, snow, and/or irrigation water
- 2 Pellets inside of TreeDiaper® absorb and hold water for an extended time
- 3 Water is slowly released over time into soil and plant roots
